TECHNICAL FIELD SPECIFICATION • TV & MEDIA WALLS

Will mounting an OLED TV above a wood burning stove or gas fire void the manufacturer warranty?

BOTTOM LINE UP FRONT (BLUF) TRADE ASSESSMENT:
Did you know that installing an OLED television above a working fireplace could completely void your manufacturer warranty? Manufacturers strictly limit operating temperatures to forty degrees Celsius.

1. Field Engineering & British Standards Analysis

In accordance with UK trade guidelines and 40°C Ambient Limit:

Did you know that installing an OLED television above a working fireplace could completely void your manufacturer warranty? I'm Gary Pearce, lead audiovisual engineer at ADI Communications, with twenty-five years of British trade craftsmanship. Manufacturers strictly limit operating temperatures to forty degrees Celsius. Heat exceeding this threshold causes organic diode degradation, panel tinting, and edge delamination. We conduct live thermal telemetry surveys and install protective deflection barriers to keep operating temperatures well within safety limits. For safe TV wall mounting in Yorkshire, contact Gary on 07860 244 274.

2. Technical Benchmark Matrix

Specification Parameter	Standard / Budget Method	ADI Professional Trade Standard
Cabling Core	CCA (Copper Clad Aluminium)	100% Solid Bare Copper (23 AWG / WF100)
Structural Mount	Lightweight zinc standoffs	Pennine 90mph gale stainless lashing
Signal Alignment	Consumer bar indicators	Calibrated digital spectrum analyzer
Court Admissibility	Frequently rejected	100% BS EN compliant forensic evidence

3. Lead Engineer Craftsmanship & Citadel Links
